## The Critical Challenges Facing Financial Institutions

Financial institutions spend 50% of their time on administrative tasks, leaving only 40% for customer engagement and growth.

### 01 Administrative Burden & Inefficiency

Manual compliance and fragmented data ecosystems lead to faculty burnout and operational bottlenecks.

### 02 Fragmented Data Ecosystem

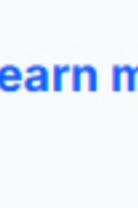

Disconnected systems (CRM, Banking, Loans) create disjointed customer experiences and missed opportunities.

### 03 Navigating Industry Evolution

Adapting to the DPDP Act and changing customer expectations requires intelligent, automated solutions.

## What can Talisma do for You?

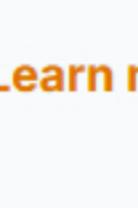

We've developed proven solutions across the entire institutional lifecycle, each designed to integrate seamlessly with your existing systems.

### FROM OBLIGATION TO STRENGTH

#### DPDP Compliance Automation

Automate PII masking, tokenization, and access controls. Ensure continuous compliance with India's DPDP Act without slowing down operations.

### ONE CUSTOMER, ONE TRUTH

#### Customer 360 Intelligence

Unify fragmented data from banking, CRM, and loans into a single actionable view. Empower sales and service teams with AI-driven insights.

### AI ALONGSIDE YOUR TEAMS

#### Operational Efficiency

Reduce handling times and improve accuracy with AI assistants for email and voice. Let bots handle routine queries while agents focus on value.
